-PALI PRES TODDLER GROUP PROGRAMS -

Our program takes a developmental approach to learning and is designed to enhance and promote the whole child. From their social, physical, emotional, and intellectual development, we provide a safe and loving environment for them to thrive. Our goal is to make your family's transition into preschool a positive and smooth process. We strive to give each child affection and acceptance so that they may develop emotionally, physically and socially. Each of our Toddler programs includes playing outside either on our big or little yard based on availability. Each class is designed to enhance the bond between adult and child in an environment that will both stimulate and engage them.
